SOCIETE GENERALE
Equipment Finance

NEXT

INTRODUCTION

The last three years have demonstrated how increasingly complex our world is. We are living through an extraordinary period of uncertainty and the challenges facing us are fundamentally changing the way we work and our ability to be confident in the future.

Our business has always been about the real economy:

We contribute to the **development of SMEs** across our geographies.

We support our **vendor partners' growth** and their sustainable journey.

We build **integrated equipment solutions** creating sustainable and positive impact.

 **BACK**

NEXT 

Our activities and expertise are vital components to **bringing solutions**, especially to the **climate challenges**. The recognition from the industry (Ecovadis ratings, ESG Leasing Life award...) and from our clients and vendors (NPS, client feedbacks) encourage us to continue to be committed and to

Care and Dare about the future.

2024 will be all about new solutions, the circular economy, carbon impact, energy transition, data, digitalisation, partnership, diversity and team spirit. The opportunities to support the real economy and sustainable practices will be very concrete.

You can count on us!

Odile de Saivre, CEO of SGEF

FORWARD TOGETHER WITH “ONE SGEF PLATFORM”

Our objective is to bring continuous value to our clients and partners based on a **unique SGEF platform approach** that enhances the digital experience and journey of all our stakeholders. Which is why we launched a brand-new set of SGEF digital services aiming at digitalising and improving the customer experience, as well as that of our partners. These services are being progressively rolled out and extended throughout our geographies.

INTERNATIONAL PRESENCE

We are a leading partner for manufacturers and vendors in Europe, the Americas, Africa and Asia.

Beyond our own network, we offer our products and solutions through Societe Generale's retail banking entities and external retail banking partners with whom partnerships are signed locally.

In this light, SGEF signed a partnership in 2022 with Quadrent, a leading Australian's asset financier and lease accounting software provider operating in Australia and New Zealand, while also continuing its partnership with Nordea in Scandinavia.

COMMITTED TO YOUTH

In 2023, SGEF teams around the world took part in the 3rd edition of Societe Generale group's sporting and solidarity challenge, **Move for Youth**, which brought together nearly 25,000 staff in 56 countries. The aim is to **walk, run and cycle as a team** to support 60 associations working closely on the ground with young people. Thanks to this collective effort, they received a total **donation of €1 million.**

Through its **The Future is You Foundation** Societe Generale seeks to continue to strengthen its actions and resources in support of young people building their future.
